 Navneet kumar

## SUMMARY

AI Engineer with knowledge of Python, Machine Learning, Generative AI, LLMs, and RAG-based applications. Experienced in building AI projects using LangChain, LangGraph, FastAPI, and vector databases. Skilled in developing intelligent chatbots, AI agents, and semantic search applications.

## SKILLS

**Programming&Databases:** Python , SQL & MySQL

**Gen AI :** LLMs , RAG ,AI Agents ,Multi-Agent Workflow ,Prompt Engineering ,Semantic Search,HITL

**AI Frameworks:** LangChain ,LangGraph ,HuggingFace ,OpenAI API

**ML&DL:** Regression,Classification,Scikit-Learn,TensorFlow,Keras,ANN,CNN,RNN,LSTM,NLP Techniques

**Data Processing & Vector Databases:** Pandas,Numpy,Feature Engineering,FAISS,Embeddings

**Backend & Deployment:** FastAPI,REST APIs,Streamlit,Git,GitHub

**Platforms:** Jupyter Notebook,PyCharm,Google Colab

**Soft Skills:** Problem Solving,Analytical Thinking,Communication,Team Collaboration

## PROJECT

### AI Mock Interview System (Multi-Agent Architecture)

- Developed a Multi-Agent AI Mock Interview Platform using FastAPI, LangGraph, LangChain, and Hugging Face LLMs for personalized interview automation.
- Built Resume Analysis, HR, Technical, Coding, Feedback, and Report Generation agents to create an end-to-end AI-driven interview workflow.
- Implemented Human-in-the-Loop (HITL) mechanisms to enable real-time validation and review of AI-generated interview assessments.
- Designed adaptive interview rounds that dynamically generate resume-based and role-specific questions according to candidate profiles.
- Automated candidate evaluation by generating skill-gap analysis, performance insights, improvement recommendations, and downloadable PDF reports

### RAG-Based Knowledge Application

- Built an enterprise-grade Retrieval-Augmented Generation (RAG) application for intelligent document question answering.
- Implemented automated document ingestion pipeline supporting PDF, DOCX, and TXT files.
- Developed chunking, embedding generation, and vector indexing workflows using FAISS.
- Integrated semantic search and context-aware response generation using Large Language Models.

## EDUCATION

### **Bachelor of Technology (B.Tech) in Computer Science and Engineering | CGPA: 7.5**

**Roorkee College of Engineering, Roorkee, Uttarakhand**

**Sep 2022 - Present**

**Relevant Coursework:**Data Structures and Algorithms , Object-Oriented Programming ,Database Management Systems , Operating Systems, Computer Networks

## CERTIFICATIONS & ACHIEVEMENTS

- **Artificial Intelligence** - Infosys Foundation
- **Python for Data Science** – NPTEL (IIT Madras) | Elite + Silver
- **Python for Data Science** – IBM Skills Network
- Secured **2nd Place** in a **college-level hackathon** for building a data-drive solution
- Represented the institution in **national-level hackathons**
